

MELLOW MOOD HOTELS

Environmental Certification

Information on the harmful consequences of textile laundering and we kindly ask our guests to reuse their towels

Energy-saving light bulbs and lamps (LED lamps)

Motion-activated, automatic lighting in most corridors, stairwells, and infrequently used areas

Selective collection of used batteries

Selective collection of used kitchen grease and other kitchen waste

Electronic billing (e-invoicing)

Washing machines are fully loaded

Percolators installed in showers

Electric car charging stations

Switching off unused machines (in offices, kitchen, and laundry)

Selective collection of used light bulbs

Lights, sockets, and air conditioning are only on when someone is present

Confirmation sent by e-mail if possible

Cleanliness of the direct environment, tidiness, flowers

Reuse used paper for internal notepads

Minimal printing, electronic communication

Toilet flushers use a two-button control system

Kitchen staff are not defrosting frozen products in cold water wherever possible

The paper cardholders for the plastic room-opening cards returned by guests are not thrown away but are returned to the room drawer

We encourage guests to collect the deposit on the day of arrival, so it is not posted, and it is saving a considerable amount of envelopes

If telephone enquirers ask about prices and services, they will be recommended the hotel's website, not a brochure

Empty cans, bottles, tubes, and jars are returned by the partner at the next delivery so that they can be reused

Cardboard boxes are not thrown away but used for storage and to pack „found objects“ to be returned to guests

Room air-conditioning and heating are also operated by the key card if not inserted in its holder, no air ventilation in the rooms, no appliances working except for the minibar

Recorded by type (paper waste, used batteries, used kitchen grease and other kitchen waste, other hazardous waste, green waste, furniture, fixtures, equipment, discarded equipment, hotel textiles, electrical and electronic waste): separate collection, and disposal
